Dear Parents,

Thank you for your interest in Bishop Garcia Diego High School.

At Bishop we understand the commitment to a college-prep, values-based education. We can provide your student with a sense of community that ensures the successful transition to the high school years while preparing for the bridge to college studies. Community is at the center of a Bishop education, creating an environment for young people to explore their interests and potential and build life-long skills.

It is the strong connection between the student and the school that sets Bishop Diego apart. An energetic program of co-curriculars offers students lively and interactive options to make the most of their high school years and build friendships. As part of the Bishop effort to ready students for college and for life, reflection on concepts of social justice, right and wrong and the search for greater truths is part of the development of critical thinking skills within the school's curriculum. As a Catholic high school we offer a faith-based education in the Judeo-Christian tradition that prepares students not only academically and socially, but also spiritually.

We recognize and support parents in their role as the primary educators of their children. Communication between the school and the parent/guardian is an important dimension of our program. The school offers a wide range of counseling services including academic, college and personal counseling. Individualized attention to our students' needs is our acknowledgement of providing them with the appropriate support at the necessary time.

We are confident in our efforts to support your student during their high school years and as they transition to college acceptance. We welcome the opportunity to answer your questions. With a variety of curriculum offerings, co-curricular activities and individualized attention, we provide a challenging education for all our students.

Sincerely,
Dr. Paul Harrington
Head of School

Sincerely,
Ashley Snider
Director of Admissions
