BD Classroom:

Welcome back!

As we open the second semester you may see that your dashboard in BD classroom does not show the classes you are expecting to see. This could be for multiple reasons all of which are a function of fall classes being separated from spring classes. If you click on “courses” then “all courses” you can highlight the star for any course you wish to appear on the dashboard. Meanwhile, teachers are busy updating rosters and publishing their Spring courses. Thank you for your patience as we all continue to learn how to use this excellent resource well. If you have any questions or issues please contact Tim or the individual teacher.

Happy New Year!

Tim Flanagan
Director of Curriculum & Instruction
